- Multi-tasking

About Me

I'm a person who enjoys code. I began as a hobby programmer in high school, which led me to pursue a formal computer science education. I enjoy exploring various aspects of technology to broaden my skill set. In my free time, I actively participate in coding challenges and contribute to open-source projects to enhance my coding proficiency.

Professional Experience

Budget Notify

It is a simple web page to store the income and expense. It acts like a wallet notify.

Tools: HTML, CSS, Bootstrap, Javascript

Github: <https://github.com/manojrajm/budget-notify>
